User benefits

- Anti-Vibration Technology (AVT) for extremely low vibration
- Both drastically increased power and low vibration are achieved with minimum increase in tool size and weight
- L.E.D. service light notifies the user approximately 8 hours before the brushes need to be replaced
- Variable speed control dial enables user to match the speed to the application for greater versatility
- L.E.D. power light indicates switch failure or cord damage
- Rubberised ergonomic soft grip provides more comfort
- Soft start suppresses start-up reaction for more precision and better accuracy
- Automatic brush cut-off protects commutator from damage for longer tool life
- Easy-to-operate slide switch increases productivity and allows for continuous use
- Side handle swivels 360° for greater control
- Double insulated
